RE: iFleet fuel catalyst

Volvo neither approves nor disapproves any product not manufactured or sold by Volvo. The use of these products are at the discretion of the end-user and any problems attributed to these products or as a result of these products would not be recognized as a Volvo responsibility.

The Volvo warranty covers defects in workmanship and material as manufactured and sold by Volvo. Therefore, adding or attaching products sold in the marketplace does not affect our warranty. However, any vehicle performance problem or failure caused by products not manufactured or sold by Volvo is not considered warrantable by Volvo.

Any cost to repair a vehicle under warranty or maintenance contract arising out of the failure or malfunction of a fuel additive will not be the responsibility of Volvo.

Regards

Malcolm Gush
Product Manager
